
PGKL

IT INFRASTRUCTURE FOR THE OFFICE ENVIRONMENT

A systems integrator delivering IT infrastructure and AV technology for multinational enterprises — engineered to specification, commissioned without compromise.

Established 2003

London · Singapore · Seoul

PGKL KOREA LLC

COMPANY PROFILE · 2026

THE BACKBONE ENTERPRISES RUN ON

ESTABLISHED

2003

Two decades of global delivery

GLOBAL DELIVERY

A technology partner operating across borders, delivering integrated systems wherever the work sits.

ENTERPRISE SCALE

Unified IT infrastructure engineered for the demands of multinational operations.

VENDOR-AGNOSTIC

Best-in-class technology, integrated impartially — never tied to a single manufacturer.

PGKL KOREA LLC

Global HQ London (est. 2003) · Regional APJ office Singapore (2009) · Seoul office (2016)

1,000+

PROJECTS DELIVERED

Across enterprise sites
worldwide

Since 2003

GLOBAL DELIVERY

Engineering across three
continents

06

CORE DOMAINS

One team, full scope

03

GLOBAL HUBS

London · Singapore · Seoul

CORE INFRASTRUCTURE, ENGINEERED

COLLABORATION ENVIRONMENTS

Workplaces engineered for how modern teams actually operate — not how brochures imagine they do.

UNIFIED COMMUNICATIONS

Network and IT infrastructure integrated into a single, coherent backbone.

PRECISION INSTALLATION

Technology delivered exactly to specification, with the finish to match.

FROM DESIGN TO HANDOVER

01

PLANNING & DESIGN

Infrastructure engineering, AV programming, and system design worked out before a single cable is pulled.

02

DEPLOYMENT

Expert installation, disciplined project management, and precise logistics from site to sign-off.

03

ONGOING SUPPORT

Maintenance, repair, and in-house quality assurance that outlasts the handover.

PRESENT WHERE YOU OPERATE

LONDON — GLOBAL HQ

The registered headquarters since 2003, directing delivery across Europe, the Middle East and Africa.

SINGAPORE — REGIONAL APJ

Established 2009 as the Asia-Pacific base, coordinating the region's most demanding programmes.

SEOUL — KOREA OFFICE

Opened 2016, embedding local delivery for multinational clients operating in Korea.

ONE OPERATING STANDARD, APPLIED GLOBALLY

Backed by an alliance network extending delivery into growth markets across the Americas, Asia and Europe.

SIX DOMAINS, ONE INTEGRATOR

STRUCTURED CABLING

Fibre optic in and outdoor, UTP, STP, TPEV, cable basket, wireway and conduit.

NETWORK & WIRELESS

Switches, servers, firewalls, wireless access and storage.

SERVER ROOM FACILITY

Power distribution, UPS, HVAC, lighting, fire, safety and monitoring.

AUDIO-VISUAL

Audio, video, speakers, projection and complete meeting-room setup.

SECURITY SYSTEMS

Access control, CCTV, fire-alarm systems and monitoring software.

PROFESSIONAL SERVICES

Design, project management, MAC, testing, commissioning and preventive maintenance.

BUILT TO SPECIFICATION

INFRASTRUCTURE

Network and broadband configuration held to the tightest tolerances.

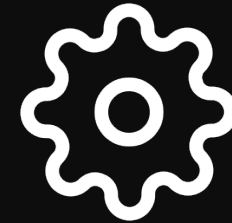

AV SYSTEMS

Workplace technology installed for uninterrupted, everyday operation.

CABLE MANAGEMENT

Structured cabling finished with the care of work that will be seen.

**PRECISION
AT EVERY LAYER**

VENDOR-AGNOSTIC BY DESIGN

Vendor-agnostic by principle. We specify the right component for the brief — not the one we are contracted to sell.

SHURE

DELIVERED, ACROSS EVERY SITE

EXPERIENCE THAT SHOWS

Network and AV environments shaped by people who have built them many times over.

A PROCESS, NOT LUCK

From first site inspection to final commissioning, every stage is accounted for.

VALUE WITHOUT SHORTCUTS

Cost-effective solutions that never quietly trade away quality to get there.

CREDENTIALS THAT TRANSFER

125+

YEARS COLLECTIVE EXPERTISE

WHAT WE VALUE

CUSTOMER FOCUS

Value added through tailored solutions and close, direct partnership — not off-the-shelf support.

COMMITMENT

Built on strong human values, shared with the partners, clients and teams behind every project.

COOPERATION

Serving clients most effectively by working through local, regional and international structures.

CREATIVE

New paths over well-worn ones — the innovations we back today become standard practice tomorrow.

ACCOUNTABLE

Answerable at every stage, measured against the outcome and backed by guarantees we stand behind.

OUR PROFESSIONAL APPROACH

SKILLED TEAMS

Modern tooling that lets us scale fast without losing rigour.

FULL OWNERSHIP

We stay responsive to the business, and we own the result.

PROVEN SYSTEMS

Robust planning and repeatable process behind consistent delivery.

**Nothing
leaves site
until it's
right.**

WHERE COMPLEXITY IS THE BRIEF

COMPLEX BY NATURE

Design decisions taken to meet genuinely demanding performance requirements.

ENGINEERED PERFORMANCE

Network excellence that comes from strategy, not guesswork.

CONSIDERED EXECUTION

Delivered well beyond the reach of off-the-shelf approaches.

THE PEOPLE ON THE TOOLS

125+

YEARS EXPERTISE

A collective depth of knowledge you can put to work from day one.

03

GLOBAL HUBS

London, Singapore and Seoul — delivery coordinated across time zones.

A–Z

FULL LIFECYCLE

Owned from initiation through to a clean, complete handover.

CERTIFIED ENGINEERS · MANUFACTURER-TRAINED · ON SITE, WORLDWIDE

PROOF, NOT PROMISES

Infrastructure and AV programmes delivered for multinational enterprises operating in Korea.

FLEXIBLE WORKSPACE

JustCo Korea

Full IT infrastructure, meeting-room AV and access control across seven centres, including Collective.

7 centres · 3 systems each

LUXURY RETAIL

Burberry Korea

Crestron store AV across thirty retail stores, with Neat conferencing in five meeting rooms at head office.

30 stores · 5 HQ rooms

LIFE SCIENCES

Danaher / Leica

IT infrastructure, AV and conferencing for the Korea head office and five operating-company sites.

6 offices · HQ + 5 OpCo

LUXURY RETAIL

Tiffany & Co Korea

Cisco, Dell and Neat conferencing across six meeting rooms, with Crestron lighting and room scheduling.

6 meeting rooms · Crestron

TECHNOLOGY

Dyson Korea

A user-experience monitoring system for Dyson's Korea lab, live-feeding video to the UK in real time.

Live KR to UK feed

INTERACTIVE ENTERTAINMENT

Epic Games Korea

Dante-networked conferencing across six meeting rooms and the town hall, distributed over the IP network.

6 rooms + town hall · Dante

ENTERPRISE SOFTWARE

Red Hat Korea

Conferencing systems and rack builds across fourteen meeting and training rooms — the largest in Korea.

14 rooms · Racks built

FURTHER WORK

And more

Further infrastructure and AV programmes delivered for multinational clients operating in Korea.
